EDUCATION

University of Technology Sydney

B.S. Artificial Intelligence

Sydney, AUS

Sep. 2025 – 2028

- **Cum. GPA:** 6.5/7.0 | Received High Distinction for Math and Computer Science courses.
- **Coursework:** Machine Learning, Deep Learning & CNNs, Data Structure & Algorithms, Business Modelling.

Lawrence S. Ting School

High School Diploma — Top 5% Graduate

Ho Chi Minh, VN

2018 – Jun. 2025

SAT: 1500 (M740, V760) • IELTS: 8.0 • Student Council President • Varsity Soccer

EXPERIENCE

AquaGuard - Flood Rescue Mobile App

Founder & Project Lead

Ho Chi Minh, VN

Sep. 2025 – Present

- Founded AquaGuard, a real-time emergency coordination system for flood disaster response, connecting citizens and rescue teams through SOS reporting and live dashboards; led a 10-member team, shipping MVP within 6 months and iterating on product direction and system design.
- Led end-to-end product development across web and mobile applications (available at aquaguard.vn), built with JavaScript, WebSocket, and Firebase; drove user growth through outreach campaigns reaching 1,400+ followers and 500,000+ total content views.

URA Research Group

AI Research Lab Member

Ho Chi Minh, VN

Mar. 2026 – Present

- Processed and analyzed 50K+ 3D skeleton sequences across NTU RGB+D and elderly activity datasets; fine-tuned Transformer-based models (MotionBERT, SkateFormer) for early action recognition and developed a real-time inference demo using FastAPI, WebSocket, and React.js.
- Contributed to a paper on Transformer-based early action recognition for elderly safety monitoring, with SHAP-based explainability and benchmark evaluation; co-authored introductory computing materials on computing fundamentals.

Bach Khoa Green Innovation Club

Director, Board of Directors

Ho Chi Minh, VN

Dec. 2025 – Present

- Guided 10+ students in research ideation and technical project development, increasing club membership by 30%.
- Proposed and led environmental innovation projects, contributing to the club's Top 1 performance recognition.

PROJECTS

CFC - Carbon Footprint App Tracker

UI/UX Designer & Contributor

New Taipei, Taiwan

Feb. – Jun. 2024

- Designed and implemented responsive UI/UX using Figma and Anvil (Python) for a carbon emissions tracking web.
- Collaborated with Fu Jen Catholic University (Taiwan) on carbon modeling; project later transferred to support ongoing environmental education and research in Taiwan (available at carbon-calculator.anvil.app).

HONORS & AWARDS

Gold Medal — Engineering Projects in Community Service (EPICS) 8TH, Arizona State University

2026

Best Presenter Award — REACH Vietnam 2025: ASEAN Youth Leadership

2025

SKILLS & INTERESTS

Technical Skills: Python, Java, JavaScript, HTML/CSS

Frameworks & Tools: Git, Cursor, MOS Specialist

Languages: Vietnamese (native), English (advanced)

Interests: Soccer, R&B Music & Travel
