## EDUCATION

### University of Technology Sydney

Sydney, AUS

*B.S. Artificial Intelligence*

2025 – 2028

- **Cum. GPA:** 6.6/7.0 | UTS Dean's List 2026
- **Coursework:** Machine Learning • Deep Learning • Data Structures & Algorithms

### Lawrence S. Ting School

Ho Chi Minh, VN

*High School Diploma — Top 5% Graduate*

2018 – 2025

SAT: 1500 (M740, V760) • IELTS: 8.0 • Student Council President • Varsity Soccer

## EXPERIENCE

### Odylytics

Ho Chi Minh, VN

*Co-Founder & Project Leader*

Sep. 2025 – Present

- Co-founded Odylytics, a social enterprise developing AI-powered disaster response and climate resilience technologies, including AquaGuard and AirGuard.
- Led product development, fundraising, strategic partnerships, and a 10-member team; expanded community outreach to 1,500+ followers and 900K+ content views while collaborating with partners across 3 countries.

### Ho Chi Minh University of Technology

Ho Chi Minh, VN

*URA Research Group — Research Lab Member*

Mar. 2026 – Present

- Third author of *Leveraging 3D Skeleton Motion for Early Action Anticipation via Spatio-Temporal Causal Modeling* (to be submitted to KSE 2026).
- Co-developed the V-Bench AI benchmark and educational resources, including the Introduction to Computing textbook, under the supervision of Assoc. Prof. Quan Thanh Tho.

*Bach Khoa Green Innovation Club — Board of Directors*

Dec. 2025 – Present

- Led research and innovation initiatives, driving 40% membership growth and helping the club become HCMUT's top innovation organization.

## PROJECTS

### Drone-based Flood Victim Detection

Ho Chi Minh, VN

*Computer Vision Project*

Jun. 2026 – Present

- Developed an end-to-end aerial object detection system for flood rescue using fine-tuned YOLOv11 models trained on VisDrone and FloodNet datasets.
- Built automated data preprocessing, model training, evaluation, and a Gradio-based inference platform supporting real-time image and video analysis deployed on Hugging Face Spaces.

### CFC - Carbon Footprint App Tracker

New Taipei, Taiwan

*UI/UX Designer*

Feb. – Jun. 2024

- Designed and implemented responsive UI/UX using Figma and Python for a web-based carbon footprint calculator.
- Collaborated with Fu Jen Catholic University on carbon modeling and sustainability research.

## HONORS & AWARDS

1st Place — Engineering Projects in Community Service (EPICS) 8TH, Arizona State University

2026

1st Place — OISP Presentation Contest (OPC) 2025, Ho Chi Minh University of Technology

2025

## SKILLS

**Programming:** Python, Java, JavaScript, SQL, HTML/CSS

**Frameworks & Tools:** React, FastAPI, Firebase, PostgreSQL, Docker

**AI/ML:** PyTorch, OpenCV, Scikit-learn, Pandas, NumPy

**Languages:** Vietnamese (Native), English (IELTS 8.0)
